

TRADE DEPRESSION IN HONGKONG AND CHINA.

II.

Before proceeding to relate what took place at the meeting of the Chinese community in Hongkong, it is necessary to state that the action of the British Government in the matter of the Exclusion Acts, was the subject of the meeting. The Chinese community in Hongkong, being the bearer of a memorial to the Queen (or to the British Government, it matters little which) invoking aid in the matter of the Exclusion Acts, is a subject of great interest to the Chinese community in Hongkong. ABRIDGED PROSPECTUS OF THE NEW BALMORAL GOLD MINING COMPANY, LIMITED.

CAPITAL \$150,000, DIVIDED INTO 50,000 SHARES OF \$3 EACH, (Of which not more than 25,000 will be offered for Subscription.)

TERMS: 50 cents per share on application, 50 cents per share on allotment, 50 cents per share on the 31st March, 1894, 50 cents per share on the 30th April, 1894.

The balance at call in instalments of not more than 50 cents per share—one month's notice to be given in respect of each instalment called up.

Applications for Shares accompanied by a deposit of 50 cents per share must be sent in to the Hongkong and Shanghai Banking Corporation on or before the 10th day of February, 1894.

For Forms of Application apply to the Hongkong and Shanghai Banking Corporation, and the Stockbrokers' Association of Hongkong.

GENERAL MANAGER AT HONGKONG: GEO. R. STEVENS.

CONSULTING COMMITTEE: DAVID GILLIES, JAMES BILLINGTON COUGHTRIE, POON PONG.

SECRETARY PRO TEM: W. H. POTTS.

BANKERS: THE HONGKONG AND SHANGHAI BANKING CORPORATION.

SOLICITORS: JOHNSON, STOKES AND MASTER.

This Company is formed to acquire all the properties and assets of the Balmoral Gold Mining Company, Limited, now in Liquidation, and hereinafter called the Old Company.

These properties and assets are as follows:—The properties known as "The Balmoral," The properties known as "The Queen of the Mount," The properties known as "The Eureka's," Machinery valued at £4,000.

Making in all £14,665.

Consideration to be paid on purchase from the Old Company and its Liquidator, 25,000 shares to be allotted to shareholders in the Old Company, \$3 per share to be deemed to have been paid up, (and with a liability of \$1 per share to be paid on application, and the balance to be at call) £45,372.

Debts owing by the Old Company and expenses to date of and including registration of the present Company, 24,600.

Many of the creditors of the Old Company have consented to take fully paid-up shares in lieu of cash, £69,972.

For working capital, \$1 per share on 25,000 shares, 25,000.

Capital of the Company, \$150,000.

From the above Statement it will be seen that the Company pays the Old Company (in shares) considerably less than their outlay for the purchase of the properties and machinery.

It is believed that the properties above mentioned contain very valuable mines—this belief being based on the following grounds:—

(a) The favorable reports which have from time to time been made on the property by Messrs. COX and SEAVY, and Mr. HENDERSON, Independent mining experts of good standing and repute in Australia. Extracts from these reports accompany the Prospectus, and the reports themselves, together with Plans of the properties, are open to inspection at the Office of the Liquidator, No. 1, Duddell Street, Hongkong. From these and from the extracts from the report of Mr. CARL WILHELM GROSS, the Liquidator of the Old Company, it appears that there is a consensus of opinion, on the part of those acquainted with the facts, that these are valuable mining properties.

(b) Gold to the value of \$100,000 has been taken out of these properties and this without any real attempt to develop the mines by sinking deep shafts.

(c) The mines when worked by tributaries (i.e., a few miners who from time to time have leased the right to work) have always made a good profit for the workers. Before the Old Company was formed upwards of 3,418 oz. of gold were won from about 1,500 to 2,000 tons of stone, and within the past 12 months tributaries on the properties are getting out stone in considerable quantities yielding from 1 oz. to 3 oz. to the ton. The workings of the tributaries will not interfere with the sinking of shafts and the development of the property, and their right of tribute will expire in September, 1894.

(d) In parts of the Balmoral property the reef has yielded as much as 4 oz. to 7 oz. per ton, and it is confidently expected that, with certain necessary expenditure in sinking and driving and in the purchase of additional machinery, these properties will turn out gold in very paying quantities.

(e) The Government of New South Wales have promised \$100 towards shaft-sinking on the Balmoral property, and the Government Prospecting Board described the Queen of the Mount as a splendid property.

(f) On the Queen of the Mount property, in 1892, 499 tons yielded 450 oz. to tributaries.

Both these properties and the Eureka property are fully referred to in the extracts from the reports which accompany the Prospectus. It is believed that the want of success of the Old Company was due to the gross mismanagement, profligacy and waste of money at the mines.

The present Company intend to secure the services of a business manager from Hongkong in whom the shareholders will have confidence, and whose headquarters will be at the mines, and under whose management the money of the Company will be applied honestly and satisfactorily in the development of the properties.

Forms of application for shares can be obtained on application to the Hongkong and Shanghai Banking Corporation or from the Stockbrokers' Association of Hongkong.
